Superfund Task Force Recommendations

- Expediting cleanup and remediation process
- Reducing financial burden on all parties involved in the entire cleanup process
- Encouraging private investment
- Promoting redevelopment and community revitalization
- Building and strengthening partnerships

Many of the recommendations under these five areas have been completed and submitted; two specific ones are scheduled to be finalized in September 2019.
Recommendation 39: “Engage and Facilitate Public/Private Partnerships to Share Information, Resources, and Work Toward Advancing and Promoting the Revitalization of the Site”. Recommendation 40: “Develop a Robust Communications Strategy to Identify and Target Key Stakeholders”.

- How do Tribal Nations ensure cultural restoration is a priority in all Superfund revitalization activities?
- How do Tribal Nations ensure they are trusted and relied upon to conduct their own reviews and revitalization activities at Superfund sites?
- How do Tribal Nations ensure they are meaningfully engaged and involved early in the process?
- How do Tribal Nations address the concerns of their communities who are tired of assessment after assessment?
- Other stories/perspectives you want to share for the benefit of your Tribal colleagues and the US EPA?
